 *Chinese & Indian Rice Mill & Genuine Spares of All.

GMC-200 (NFL10.0-F21ZSi) model Rice Mill and Powder Crusher Combined Machine

- Function**
 Rice and powder crusher combines this Machine. Therefore, it has these functions of rice mill and powder crusher:
 - Husking Paddy polishing white rice.
 - Husking millet.
 - Peel niblet and break it into several small granules.
 - Crushing.

Specification of GMC200 NFL10.0-F21ZSi model Rice Mill and Powder Crusher Combined Machine:

Product Name:	Rice mill machine	Powder crusher machine
Model No.:	NFL10	F-21ZS
Matched Power:	3Hp 100% copper wire motor	
Rated Rotary Speed:	1250RPM	5500RPM
Production:	≥200kg/h	≥320kgs/h
Power Supply:	220V, 50HZ	
Power Consumption	≤ 2.5kW. h/t	

- Operation Method**

Easy operation, just connect the power to start the machine, and then put the material into inlet hopper (inlet should be closed before machine goes to running coil), open inlet plate slowly, grain/paddy will go into grinding/milling chamber, then high speed rotating tooth inside will grind them. Convenient to clean. Just open the cover, then you can check and clean inside.
